Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 30 day MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Species I

Election of Species

1. This application contains claims directed to the following patentably distinct species of the **internal construction of control unit** of the claimed invention:

- a. Species I is identified in Figures 3 and 4,
- b. Species II is identified in Figure 10, and
- c. Species III is identified in Figure 14.

2. This application further contains claims directed to the following patentably distinct species of the **control unit of Species I (figures 3 and 4)** of the claimed invention:

- a. Species I (1st example) is identified in Figure 5,
- b. Species II (2nd example) is identified in Figure 6,
- c. Species III (3rd example) is identified in Figure 7,
- d. Species IV (4th example) is identified in Figure 8, and
- e. Species V (5th example) is identified in Figure 9,

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. If species I of 1a is elected, applicant is required to further elect one of the species of 2a-e for prosecution. Currently, no claim appears to be generic.

a. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 3611

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

b. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP, 809.02(a).

c. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

d. A telephone call was made to Mr. Curtis B. Hamre on 5/5/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

e. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

f. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 3611

remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Tony Winner whose telephone number is (703) 306-5957. The examiner can normally be reached on Monday-Friday from 9:00 am to 5:00 pm.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1113.
